Every value rendered in the accompanying Market Research Report appears below with its source, retrieval time, and the exact query used. Fields recorded as Unknown, Degraded, or Measured zero are listed with the same provenance so that missing, failed, and genuinely-zero results remain distinguishable.

Rendered fields group 1 (1 of 12)				
Field	State	Rendered value	Source	Retrieved (UTC)
§15 Total measured market	Sourced value	\$21,901,743	Mindy MCP get_keyword_coverage	2026-10-07T08:16:53.381Z
§15 Supplier concentration	Sourced value	Largest NAICS share 68.1% — 236220 (commercial and Institutional Building Construction) of the measured keyword-coverage market	Mindy MCP get_keyword_coverage	2026-10-07T08:16:53.381Z
§15 Market diversity	Sourced value	18 NAICS codes in the §5 coverage set	Mindy MCP get_keyword_coverage	2026-10-07T08:16:53.381Z
§15 Small business footprint	Unknown / insufficient evidence	Unknown / Insufficient evidence — not stated — the small-business evidence in §12 is a sample, so a market-wide small-business footprint is not reported	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z
§15 Socioeconomic footprint	Sourced value	8(a): 2 families; HUBZone: 3 families; SDVOSB: 5 families; WOSB: 5 families; EDWOSB: 0 families (parent companies counted in §12).	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z
§15 Pricing evidence	Unknown / insufficient evidence	Unknown / Insufficient evidence — GSA CALC returned no labor rates for NAICS 236220, so no rates are shown. Mindy does not estimate rates; the contracting officer owns the Independent Government Estimate.	Mindy MCP get_pricing_intel	2026-10-07T08:17:02.832Z
§12 Rule of Two determination	Sourced value	Not determined	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z

Rendered fields group 1 (2 of 12)				
Field	State	Rendered value	Source	Retrieved (UTC)
§12 Set-aside recommendation	Sourced value	Insufficient evidence to support a set-aside: the supplier evidence is a sample, not the full market (Mindy scored 50 of the 2,442 registered small businesses); 14 distinct small-business parent companies with capable performance were found among the listed firms. That shows such firms exist, but this report does not turn a sample into a market-wide Rule-of-Two determination. Scope of this evidence: California small-business capacity for NAICS 236220; the supplier search did not filter by contracting office FA4610.	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z
§12 Capable small-business parent companies counted	Sourced value	14	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z
§12 Share of registered firms with federal contract history	Sourced value	3.9%	Mindy MCP assess_market_depth	2026-10-07T08:17:01.469Z
§12 Agency small-business context	Sourced value	Department of the Air Force, FY2025 (latest complete fiscal year): 7.1% of contract obligations were made under small-business set-aside codes. By program: general small-business set-aside 4.7%; 8(a) / SDB 1.7%; SDVOSB 0.2%; WOSB / EDWOSB 0.1%; HUBZone 0.3%. This is a floor on small-business participation, because small firms also win unrestricted awards. It is not comparable to the government-wide small-business goals, which SBA measures against small-business-eligible dollars. Source: USASpending. Rendered value:

Mindy searched active SAM registrations for small businesses in NAICS 236220 located in California, scored them on their federal award history, and resolved parent companies through USASpending. Of 2,442 small businesses registered in SAM for NAICS 236220 in California, 96 (3.9%) have held a federal prime contract in that NAICS. Mindy scored 50 of them; 44 of the 50 show capable or active performance. The 15 highest-scoring firms are listed with full detail. They belong to 14 distinct parent companies (1 with a parent not confirmed). The search covers the NAICS and state only; it does not filter by contracting office, installation or PSC.

§9 Award history finding	Sourced value	25 award(s) made by contracting office FA4610, matched on the awarding office code (BUYER / CONTRACTING HISTORY). Work at the installation bought by another agency is listed separately as installation context.	bq.usaspending.awards awarding_office_code	2026-10-07T08:16:54.299Z
§9 Predecessor / incumbent	Degraded	Degraded — no sufficiently consistent predecessor award established — candidate awarding activity "Department of the Army / Department of Defense" does not correspond to requested "Department of the Air Force"; a shared department is not sufficient; candidate office "ENDIST" does not match requested contracting office FA4610. INSTALLATION CONTEXT: work at the scoped installation bought by another agency — not buyer/contracting history for the scoped office.	Mindy MCP find_predecessor_award	2026-10-07T08:16:55.606Z

Predecessor checks		
Check	Result	Detail
grounded and not degraded	PASS	grounded=true, degraded=false
agency consistency	FAIL	candidate awarding activity "Department of the Army / Department of Defense" does not correspond to requested "Department of the Air Force"; a shared department is not sufficient
contracting office	FAIL	candidate office "ENDIST" does not match requested contracting office FA4610
NAICS consistency	PASS	exact match on 236220
title similarity	PASS	5/9 significant token(s) shared (56%): construction, vanderberg, space, force, base
traceable award identifier and source link	PASS	id=W912PL26CA005
tool-reported confidence (recorded, not decisive)	PASS	matchConfidence=high

4. Known limitations

- Phase 1 populates §5 (Taxonomy), §9 (Procurement History), §11 (Potential Suppliers), §12 (Small Business / Rule of Two), and §15 (Market Intelligence). Remaining sections are Phase 2 placeholders.
- Predecessor / incumbent results are inferential and agency-validated; they are never a certified contract lineage.
- SBA size standard source: U.S. Small Business Administration, Table of Small Business Size Standards, 13 CFR 121.201, read from eCFR (current as of 2026-10-05; section last amended 2023-03-17).
<https://www.ecfr.gov/current/title-13/section-121.201>
- Corporate-family deduplication uses current-state USASpending parent_uei edges only. It is NOT point-in-time safe for investment backtests. Name/amount/keyword heuristics never create a parent match. Ambiguous parentage stays unresolved and cannot satisfy Rule of Two.
- Supplier counts distinguish raw UEI rows from parent-deduplicated families. Truncated samples are never treated as populations.
- Pricing in §15 is supporting market evidence only — never an Independent Government Estimate. The KO owns the IGE in Phase 2.
- §11: The supplier evidence is a sample, not a census: the firms Mindy scored are a limited subset of the registered small businesses, and the supplier counts describe that sample.
- §11: Certification source matters: 8(a) and HUBZone come from SAM's SBA-certified field (vetted). WOSB, SDVOSB, and VOSB are self-certified business types in SAM (not independently vetted here). The rubric weights vetted certifications higher; verify self-certified status before a set-aside determination.
- §11: Activity (award history, revenue) is sourced from USASpending. "Registered Only" firms have no relevant award history and are shown separately — they do not count toward the Rule-of-Two depth.
- §11: Small-business status is SAM's per-NAICS representation for 236220 (sbaSmallBusiness), SELF-CERTIFIED by the entity in its SAM registration — not an SBA size determination and not a socioeconomic certification. Source: sam_bulk_extract:SAM_PUBLIC_MONTHLY_V2_20260802.ZIP. Firms where SAM supplied no status for this NAICS are excluded from the small-business pool; that is "not stated", not "not small".
- §11: Parent companies come from current USASpending parent records. Sister companies under the same parent are not searched for separately.
- §11: California small-business capacity for NAICS 236220. These firms are statewide market capacity, not a list of the contracting office's own suppliers.
- §12: A sample, or unresolved small-business status, stays "not determined"; this report never reports it as met or not met.
- §12: The supplier search was filtered by NAICS and state only. It does not show which firms sell to the scoped contracting office.
- §15: Measured facts: total market \$21,901,743 reused from §5 keyword coverage (SABER); supplier concentration from §5 coverage NAICS shares: Largest NAICS share 68.1% — 236220 (commercial and Institutional Building Construction) of the measured keyword-coverage market; §12 capable small-business family count reused.
- §15: Estimates / proxies: market diversity is a NAICS-count proxy from the §5 coverage set, not a formal concentration index; §15 does not auto-fill commerciality (§15b) — that determination remains Phase 2 / KO-owned; §15 market-dollar figures reuse §5 keyword-coverage (phrase market), not a census of the entire primary-NAICS market.
- §15: Unknowns: pricing evidence unknown — GSA CALC returned no labor rates for NAICS 236220, so no rates are shown. Mindy does not estimate rates; the contracting officer owns the Independent Government Estimate..
