

This optional Market Research Report (MRR) template facilitates collaboration between requiring activities and contracting offices. It streamlines the documentation of Government estimates, commerciality determinations, and market research results. This template is intended for actions exceeding the Simplified Acquisition Threshold (SAT) or actions that could lead to a bundled contract. The MRR should be written as a single, cohesive document that clearly identifies the requirement, estimated cost or price, commerciality, and market research findings. Once completed, it becomes a formal part of the contract file and acquisition planning process, directly supporting the requirements definition, Acquisition Strategy, Acquisition Plan, Source Selection Plan, and Small Business Plan.

The Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS), and Army Federal Acquisition Regulation Supplement (AFARS) references in this template implement the Revolutionary FAR Overhaul (RFO) and DFARS RFO Class Deviations, effective beginning 01 February 2026. It is the responsibility of the users of this template to validate all references.

In addition to the Government estimate and market research, this document contains the required information to address an individual or class Request for Approval (RFA) application and should be used as part of the justification procure non-commercial products or services, in accordance with Defense Pricing, Contracting and Acquisition Policy (DPCAP) memorandum “Executive Order 14271 – Ensuring Commercial, Cost-Effective Solutions in Federal Contracts – Implementation Guidance”, dated 27 May 2025. When used as an RFA application, the comments in blue are required to be addressed in detail for this document to comply with the RFA criterion. Whether the individual or class RFA is approved through this document, an acquisition strategy, or acquisition plan, it does not need to be duplicated in other documents.

Note: Tailor all aspects of this template to the individual acquisition. Ensure any template areas providing sample language or instructions (red, blue, and/or italicized language) are deleted before submission. Text in black is highly recommended but may be customized to the needs of the individual acquisition. Complete the sections in detail appropriate to the size and complexity of the acquisition to ensure sufficient information for the approvals. If a paragraph prescribed in the format does not apply to the requirement, indicate “Not applicable” and explain why in detail.

In accordance with Army Regulation 25-50, use authenticatable digital signatures secured via DoD Common Access Card for documents. At a minimum, this document shall include the Part 4 Signature Page completed by the preparer, technical, requirements, and contracting personnel.

Market Research is generally unclassified, but the nature of the requirement may require Controlled Unclassified Information (CUI) markings. If applicable, the appropriate CUI markings should be annotated on each page, to include the CUI Designation Box on the lower right corner of the first page of the document or CUI cover sheet.

Commercial *(remove this title description when using this document as part of a RFA application)* **Market Research Report with Price or Cost** *(choose one)* **Estimate Individual or Class** *(choose one)* **Request for Approval to procure non-commercial products or services** *(include the RFA title when using this document as part of a RFA application, otherwise remove)*

Part 1 – General Information

1. Product/Equipment/Service/Program: *Identify the title or short description of the services or supplies required to meet the agency's needs and the product/equipment/service/program managing office/requiring activity with location. For example: "Mission Support Services at Fort Swampy, Louisiana for the United States Army Command."*

2. Points of Contact:

Individual preparing this market research report.

Prepared by:

Typed Name
Title

Date: *Prepared*
E-mail:

Representatives within the organization with specific knowledge of the individual requirement (program/equipment, commodity, technology, and/or function), the responsibility for acquiring the supplies or services described in the justification, and authority to certify the attestations (e.g. Contracting Officer's Representative (COR), depot commander, or senior program engineer) may represent the technical and requirements certifications.

Technical/Requirements:

Typed Name
Title

E-mail:

3. Contracting Activity: *Specify the contracting activity and location responsible for this action.*

Contract Specialist:

Typed Name
Title

E-mail:

Contracting Officer:

Typed Name
Contracting Officer

E-mail:

4. Independent Government Estimate (IGE): The estimated value of this effort is *(insert \$ value)* including all options and Federal Acquisition Regulation (FAR) 52.217-8, "Option to Extend Services". *Include the appropriate table.* This estimate was made in support of commercial items using commercial sources *list sources and include*

documentation in the contract file. If this document will procure non-commercial products or services, include a sufficient narrative and analytical detail, to include reference material, to support its preparation on how the estimate was made. What assumptions were made? What information/tools were used? Where was the information obtained from? How did previous estimates compare with prices paid? Provide a detailed attachment to support the narrative. See the DoD IGE Handbook for more information. The IGE contains a certification that the Government independently developed the IGE prior to seeking formal proposals from contractors. *This statement is required if using this document to the Government estimate.*

Item	Quantity	Delivery Date	Estimated Unit Price	Estimated Value
<i>Widget X</i>	<i>XXXX</i>	<i>DD MMMM YYYY</i>	<i>\$X.X</i>	<i>\$X.X M</i>

Period	Period of Performance (POP)	Estimated Value
<i>Base</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Option 1</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Option 2</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Option 3</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Option 4</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Estimated Total Price</i>		<i>\$X.X M</i>
<i>FAR 52.217-8</i>	<i>DD MMMM YYYY through DD MMMM YYYY</i>	<i>\$X.X M</i>
<i>Estimated Overall Total Price</i>		<i>\$15.4M</i>

5. The taxonomy for this acquisition is:

Portfolio Group: *For example: “Knowledge-Based Services” see Defense Federal Acquisition Regulation Supplement (DFARS) Procedures, Guidance, and Information (PGI) 237.802-74, Taxonomy for the acquisition of services and supplies & equipment*

Portfolio: *For example: “Engineering and Technical Services”*

Product Service Code (PSC): *For example: “R425” see <https://psctool.us/>*

PSC Description: *For example: “Support Professional: Engineering/Technical”*

North American Industry Classification System (NAICS) Code: *For example: “541715”*

Note: *Select the NAICS code which best describes the principal purpose of the product. Primary consideration is given to the industry description in the NAICS, the product description in the solicitation, the relative value and importance of the components of the procurement making up the end item being procured, and the function of the goods being purchased. Do not assign a wholesale or retail trade to NAICS code to procurement for supplies.*

NAICS Code was identified through a review of the U.S. Census Bureau’s website at <https://www.census.gov/naics/>. NAICS code was selected (*briefly explain the basis for selecting the NAICS*). *Note: an explanation that only states the NAICS was used on the last procurement is not appropriate.*

NAICS Description: *For example: “Research and Development in the Physical, Engineering, and Life Sciences (except Nanotechnology and Biotechnology)”*

NAICS Corresponding Index Category: *For example: “Engineering research and development laboratories or services (except nanotechnology research and development)”*

Small Business Size Standard: *For example: “1,000 employees” See <https://www.sba.gov/document/support-table-size-standards>*

6. Description of Supplies/Services: *Name and describe the supplies/services required to meet the agency’s needs addressed by this market research report. The description is about the Government’s need not what the contractor will provide. Do not copy and paste sections of the Performance Work Statement or Statement of Work. (e.g., “This requirement is for non-personal services... or ... the contractor will provide...”) as it is of no added value. Include quantity or period of performance, including options, if any, and the estimated total value. The description for an RFA must fully support the proposed procurement. In a class RFA, the description must include the specified scope, time period covered, and expiration date. When using this document as part of an individual or class RFA application, include the following statement: “This description meets the requirement for an individual or class (choose one) Request for Approval (RFA) to procure non-commercial products or services.” Information to address this section may include but is not limited to the following questions:*

- *What is the service/product? Is the supplies/services commercial? Any modifications of a type customarily available in the commercial marketplace?*
- *What are the components or elements of the service/product?*
- *What performance requirements must be met?*
- *What does the service support? Or What is the product to be used for?*
- *When is the service required? When is the product required?*
- *Where will the service be performed?*
- *Are there any geographic or location limitations/issues?*
- *Are there delivery requirements to consider?*
- *Are there unique requirements? Especially if this MRR will support the procurement of a non-commercial item.*
- *Are there distribution needs to be accounted for?*
- *Are there mandatory source requirements?*
- *What other customers or Government agencies are buying the service?*
- *What current contract vehicles are available?*
- *Are there related requirements that will affect this service? Conversely, will this service affect other requirements?*

7. Performance Requirements: *State the critical performance requirements that the service/product must meet.*

- *What are the performance requirements, and how are they measured? If the requirement is not performance based, what special considerations justify that decision?*

- *What commercial solutions can address the requirement? Especially if this MRR will support the procurement of a non-commercial item.*
- *If a commercial solution is not feasible, what are the military-specific requirements that must be met?*
- *What are the requirements/performance trade-offs to better align with the commercial market?*
- *How does industry sell the service/product, and are the requirements written in those terms?*

8. Background: *As appropriate, include a brief background on the requirement to assist the approval authority understand the basis of the Government's need. If applicable, explain any technical data packages, specifications, engineering descriptions, etc., to be developed or available. Provide clear descriptions so that someone not familiar with the supplies/services would understand the requirement. Information to address this section may include but is not limited to the following questions:*

- *Is the requirement new or recurring? If not, how long has the service been required and how has it been resourced to date?*
- *If the requirement was previously resourced via contract, was a commerciality determination made by another Government office? When? Is the determination still viable? Especially if this MRR will support the procurement of a non-commercial item.*
- *Is relevant market research already available based on similar procurements?*
- *What prior acquisition strategies were used?*
- *What prior commercial or government work have potential service providers performed?*
- *What prior efforts were taken to remove barriers to competition?*
- *What problems were encountered during prior contract performance?*
- *What is the past performance baseline?*
- *What changes have occurred in the marketplace (suppliers, trends, technologies) that impact previously relevant market research?*
- *What lessons learned/best practices inform this acquisition?*

9. Procurement History: *Reasonable efforts to retrieve the following items from computer records, contract files, competition advocate office files or other sources are expected. A table of previous information such as contract number, contractor name, POP, total value, contract type, procurement method, and competitive status can assist the approval authority understand the history of the requirement. Include narrative subparagraphs to include other facts needing explanation that a table cannot include due to space constraints, such as source selection method, commerciality (especially if this MRR will support the application of the individual or class RFA for procurement of a non-commercial item), and basis for fair and reasonable pricing.*

Contract Number / Contractor	Contract Type	Procurement Method	Offerors/ Bidders/ Vendors	Amount	Period of Performance
------------------------------	---------------	--------------------	----------------------------	--------	-----------------------

W9XXXX-XX-X-XXXX / IMA Sole Source, Inc.	CPFF	Sole Source FAR 6.302-1/ RFO 6.103-1	1	\$XX.X M	DD MMMM YYYY through DD MMMM YYYY
W9XXXX-XX-X-XXXX / URA Competitor, Inc.	T&M	Unrestricted competitive	8	\$XX.X M	DD MMMM YYYY through DD MMMM YYYY
W9XXXX-XX-X-XXXX / Price4Less, Inc.	FFP	SBSA competitive	5	\$XX.X M	DD MMMM YYYY through DD MMMM YYYY
W9XXXX-XX-X-XXXX / Price4Less, Inc.	FFP	SBSA competitive	3	\$XX.X M	DD MMMM YYYY through DD MMMM YYYY
W9XXXX-XX-X-XXXX / SB Goalie, Inc.	FFP	SBSA competitive	3	\$XX.X M	DD MMMM YYYY through DD MMMM YYYY

a. Narrative to support the table above. contract number, awarded contractor, description of requirement, method of procurement: (SBSA, 8(a), unrestricted, sole source, etc.), contract type, period of performance, total awarded amount, number of option periods: (include extensions allowed in accordance with FAR 52.217-8), number of offerors, source selection method, basis for fair and reasonable pricing, commerciality.

b. Narrative to support the table above. contract number, awarded contractor, description of requirement, method of procurement: (SBSA, 8(a), unrestricted, sole source, etc.), contract type, period of performance, total awarded amount, number of option periods: (include extensions allowed in accordance with FAR 52.217-8), number of offerors, source selection method, basis for fair and reasonable pricing, commerciality.

c. Narrative to support the table above. contract number, awarded contractor, description of requirement, method of procurement: (SBSA, 8(a), unrestricted, sole source, etc.), contract type, period of performance, total awarded amount, number of option periods: (include extensions allowed in accordance with FAR 52.217-8), number of offerors, source selection method, basis for fair and reasonable pricing, commerciality.

d. Narrative to support the table above. contract number, awarded contractor, description of requirement, method of procurement: (SBSA, 8(a), unrestricted, sole source, etc.), contract type, period of performance, total awarded amount, number of option periods: (include extensions allowed in accordance with FAR 52.217-8), number of offerors, source selection method, basis for fair and reasonable pricing, commerciality.

e. Narrative to support the table above. contract number, awarded contractor, description of requirement, method of procurement: (SBSA, 8(a), unrestricted, sole source, etc.), contract type, period of performance, total awarded amount, number of option periods: (include extensions allowed in accordance with FAR 52.217-8), number

of offerors, source selection method, basis for fair and reasonable pricing, commerciality.

10. Non-Commercial Rationale: *Rationale for pursuing a Government-unique, custom-developed or otherwise non-commercial product or service. In accordance with DPCAP memorandum “Executive Order 14271 – Ensuring Commercial, Cost-Effective Solutions in Federal Contracts – Implementation Guidance”, dated 27 May 2025 use of commercially available products and services should not be about casting truly non-commercial products or services as “commercial” for the purpose of misapplying policies and procedures unique to the acquisition of commercial products and commercial services. Program Managers and requirement owners, in collaboration with contracting officers must detail the justification as part of the individual or class RFA application to procure non-commercial products or services. The DPCAP limitations for class RFAs must be incorporated to level of detail required to fully support the proposed procurement within a specific scope for the class as a whole and for a specified period with the expiration date indicated in the document. When using this document as part of an RFA application, include the following statement: “This rationale meets the requirement for an individual or class (choose one) RFA to procure non-commercial products or services.””*

11. Potential Supplier Information: *Use the table to build a list of potential vendors and known sources with the capability to provide the service required.*

Vendor Name	CAGE Code	Business Size	Location	Point of Contact	Capability Assessment
IMA Sole Source, Inc.	XXXXXX	Large	XXXX, XX	Name: Phone: Email:	Assess capability in terms of performance, cost, schedule and risk
URA Competitor, Inc.	XXXXXX	SB	XXXX, XX	Name: Phone: Email:	Assess capability in terms of performance, cost, schedule and risk
Price4Less, Inc.	XXXXXX	WOSB	XXXX, XX	Name: Phone: Email:	Assess capability in terms of performance, cost, schedule and risk

Note: Use this section to

- Identify the number of sources contacted; identify whether they were large business, small business, small/disadvantaged business, Section 8(a) business, woman-owned business, government/non-government.*
- Describe efforts to locate sources and explain the rationale used to exclude sources*

12. Small Business Opportunities: *Provide an assessment of the potential opportunities for small business set-aside and or direct award opportunities by identifying the specific type of small business set-aside supported by the results of the Market Research. See FAR Part 19 for specific Set-Aside Procedures, i.e., WOSB,*

HUBZone, SDVOSB & 8(a). If it is determined that a specific Set-Aside is not appropriate, include supporting rationale to address reasons for applicable exclusions.

- *Is the service suitable for small business, or can the requirement be segmented to include small business?*
- *Is there an opportunity to support Other Socioeconomic Programs, as defined in DFARS Part 226?*

13. Mandatory Sources: *FAR Part 8/DFARS Part 208 Sources Screened may include - AbilityOne Program, Federal Prison Industries, Federal Supply Schedules, Enterprise Software Agreements (incl CHES) or other Preferred Sources.*

As a best practice, note the date and include copies of the documentation in the contract file when an assessment of AbilityOne, Federal Prison Industries, etc. offerings was completed and any point of contact information relating to direct engagement with representatives of these programs. If these programs have eligible offerings, but will not receive an award, document that a waiver (purchase exception) was completed.

Part 2 – Detailed Market and Industry Analysis

Market Research Objectives: *Consider these objectives in the narrative throughout the document as addressed in the individual paragraphs.*

- *Refinement of the requirement in industry terms (or standards, if applicable)*
- *Increased competition*
- *Increased small business participation*
- *Understanding of cost*
- *Develop effective contract structure*
- *Viability of incentive approaches with suppliers*
- *Insight on metrics related to cost, schedule, and performance in the delivery of services (e.g., Operational Management considerations such as adequate application of skill mix, efficiency in processes to establish cost avoidance, and reduced rework)*
- *Understanding of the potential for major subcontractor involvement and the strategy to balance monitoring of key subcontractors with prime contractor privacy*
- *Early identification of potential Organizational Conflict of Interest (OCI) risks and the anticipated mitigation plans*
- *Understanding of the intellectual property (e.g., tech data and software) landscape necessary to increase competition (e.g., what does the U.S. Government already own across the DoD, and what do we need to procure through future contracts or via deferred ordering/delivery on existing contracts)*
- *Anticipate industry need for Government Furnished Material/Equipment/Information/ Real Property and how it affects the acquisition approach*
- *Determination of commercial service availability to meet the requirement*

14. Market Research Techniques Used: *Describe the various methods used to arrive at the market research findings in detail. When using this document as part of an individual or class RFA application, include the following statement: “These detailed market research activities meet the requirement for an individual or class (choose one) RFA to procure non-commercial products or services.” The following are examples of techniques to employ.*

- *PAM Market Research & Planning page, see https://armyetaas.sharepoint-mil.us/sites/ASA-ALT-PAM-ProcProc/SitePages/Market_Research.aspx.*
- *Read trade journals.*
- *Engage knowledgeable people (government and industry) in specific markets.*
- *Interview contracting officers, contract specialists, small business specialists, project officers, and functional experts within your agency and those in other federal agencies as well as private industry (other users). Take advantage of the lessons that these individuals have learned in previous acquisitions as well as best practices identified by acquisition knowledge centers (e.g., the Defense Contract Management Agency’s Commercial Item Group and Functional Domain Experts).*
- *Identify and engage known sources of services.*
- *Employ and review market surveys to obtain information from potential sources.*
- *Conduct vendor and customer site visits to assess capabilities, practices, and collect lessons learned.*
- *Attend trade shows, conferences, and symposia.*
- *Query government databases that provide relevant information on like acquisitions such as*
 - *the System for Award Management (SAM), see <https://sam.gov/>*
 - *Federal Procurement Data System – Next Generation (FPDS-NG), see https://www.fpds.gov/fpdsng_cms/index.php/en/*
 - *Inventory of Contract Services for DoD contracts on Defense Pricing and Contracting, see <https://www.acq.osd.mil/asda/dpc/cp/policy/service-contract-inventory.html>*
 - *Service Contract Inventory for select Civilian Agencies on Acquisition.gov, see <https://www.acquisition.gov/content/service-contract-inventory>*
 - *General Services Administration’s (GSA) Acquisition Gateway, etc.*
- *Perform web searches (see SD-5, appendix A)*
- *Review results of recent market research on similar or identical requirements.*
- *Seek feedback via formal requests for information, sources sought synopses, and draft PWS/SOW/SOO statements in Contract Opportunities on SAM.gov and, when appropriate, technical or scientific journals, as well as business publications.*
- *Obtain source lists of similar services from other contracting activities or agencies, trade associations, or other sources.*
- *Review catalogs and literature published by service providers.*

- *Review Federal Supply Schedule contracts and other government contracts, including but not limited to GSA Alliant, National Aeronautics and Space Administration (NASA) Solutions for Enterprise-wide Procurement (SEWP), GSA One Acquisition Solution for Integrated Services (OASIS), and the Professional Services Schedule (PSS).*
- *Hold interchange meetings, industry days, or pre-solicitation conferences to involve potential offerors early in, and throughout, the acquisition process.*
- *Interview Agency/DoD/Federal Category Manager*

15. Market Intelligence/Industry Analysis: *Describe the market intelligence/industry analysis performed for the supplies/services.*

- *What is the availability of the service/product?*
- *What is the demand for the service/product?*
- *What is the industry experience level for this service/product?*
- *How many suppliers are in the market and what is the market share (e.g., is/are the majority of the services/product provided by a small number of suppliers, or is the supplier pool more diverse)?*
- *What is the Government's market share/leverage in the marketplace (e.g., is the Government the only buyer, making a minority of buys in the market, or making the majority of buys)?*
- *What is the small business footprint?*
- *What socio-economic entities participate in this market (e.g., are Small Business Administration 8a, Historically Underutilized Business Zone, or Service-disabled Veteran-owned Small Business entities present in the market segment)?*
- *What is the structure of the supply chain?*
- *What is the pricing structure?*
- *How are the services/products segmented (e.g., how do offerors develop, market, and deliver services/products based on the characteristics of current and target customers such as geographic location, use cases, price and risk sensitivity, and/or other purchasing behaviors)?*
- *What business, trade, legal, political, and other developments affect the market?*
- *What is fair/reasonable market price for services/products within the industry, which may include an assessment of available price data, price ranges, known pricing issues, or an explanation of price variations?*
- *What are the applicable industry standards, regulations, trade journals, or process guides germane to the service/product to be acquired?*
- *What, if any, are the environmental or safety regulations that affect the required service/product?*
- *What are the standard industry terms and conditions offered to commercial customers in the marketplace?)*

a. Environmental conditions: *Describe the environmental conditions in the market for the supplies/services.*

- *What changes have occurred in the marketplace (suppliers/service providers, trends, technologies)?*
- *What are the requirements of any laws and regulations unique to the item being acquired?*
- *What is the availability of items/services that contain or include recovered materials and items that are energy efficient?*
- *What kind of freight requirements need to be considered?*
- *What kind of accommodations need to be considered for entry into service locations?*
- *What is the standard delivery/service time?*

b. Commerciality assessment, determination, and terms and conditions: *Describe the commercial conditions and assessment of the market for the supplies/services.*

- *Are supplies/services customarily available in the commercial marketplace, with modifications, or are items used exclusively for governmental purposes?*
- *If supplies/services are not available in the commercial marketplace, what revisions can the Government make to the required features to allow for the commercial marketplace to submit offers?*
- *Is there available market research information already done by others in government?*
- *What are customary practices regarding customizing, modifying or tailoring of items/services to meet customer needs and associated costs?*
- *What are customary practices, including warranty, buyer financing, discounts, contract type considering the nature and risk associated with the requirement, etc., under which commercial sales of the products/services are made?*

In accordance with DFARS PGI 212.001-70(b), before making a commercial item determination, the Contracting Officer shall search for a prior commercial item determination for the same item within the Commercial Item Database located in EDA at <https://piee.eb.mil/>.

IAW Defense Federal Acquisition Regulation Supplement (DFARS) Procedures, Guidance, and Information (PGI) 212.001-70(b), the Commercial Item Database was searched on XXDATE. Include a copy of the determination from the database in the contract file. Choose the appropriate statement for the determination:

(1) A prior determination was found within the Commercial Item Database. IAW DFARS 212.001-70(b), the prior determination serves as the determination for this procurement and is complete. (2) A prior determination was found within the Commercial Item Database. However, the Contracting Officer disagrees with the determination. IAW DFARS 212.001-70(b)(2)(ii), the Head of the Contracting Activity (HCA) has determined that the prior use of FAR Part 12 procedures was improper or that it is no longer appropriate to acquire the item. Complete the determination in the signature page section. Additionally, the individual or class RFA application must be completed and approved to continue with the procurement as non-commercial. Include the following statement: "This determination meets the requirement for an individual or class (choose one) RFA to procure non-commercial products or services." (3) No prior determination was found within the Commercial Item Database. Based on the market research herein, the Contracting Officer has determined the supplies/services meet the definition of a commercial product or commercial service definition at FAR 2.101. IAW

DFARS PGI 212.001-70(b)(C), the Contracting Officer shall upload this determination to the Commercial Item Database within 30 days of contract award. (4) No prior determination was found within the Commercial Item Database. Based on the market research herein, the Contracting Officer has determined the supplies/services does not meet the definition of a commercial product or commercial service definition at FAR 2.101, see paragraph 9, above. *Include the following statement: "This determination meets the requirement for an individual or class (choose one) RFA to procure non-commercial products or services."*

c. Government's leverage:

- *What other government agencies are buying the supply/service?*
- *What current contract vehicles are available?*
- *What is the demand for the service?*

d. Pricing Factors and Analysis: *Describe the pricing conditions and analysis of the market for the supplies/services. When using this document as part of an individual or class RFA application, include the following statement: "This detailed price analysis meets the requirement for an individual or class (choose one) RFA to procure non-commercial products or services."*

- *What prices were found and where (e.g., catalogs, websites, etc.)*
- *Are quantity discounts available?*
- *What forces might drive up prices in the near future (e.g., strikes, labor shortages, energy shortages, raw material shortages, etc.)?*
- *What forces might lead to lower prices in the future?*

Part 3 – Results of Market Research

16. Conclusions and Recommendations:

Summarize your analysis with recommendations for:

- *Acquisition strategies to pursue (e.g., commercial acquisition, 8(a) direct, small business set-aside, sole source, full and open competition, Native American direct, or HUBZone)*
- *Category Management opportunities*
 - o *Potential existing contract vehicles that may be employed to satisfy your requirement*
 - o *Efficiencies to be gained using industry best practices*
 - o *Opportunities to manage demand*
- *Recommendations on improvements to the quality and thoroughness of the Government's technical performance documents and configuration control data based on research results*
- *Relevant risks to be considered as part of any source selection activities*
- *Specific contract terms and conditions*
- *OCI concerns*
- *Intellectual property considerations*

- *Government-furnished material/equipment/information/real property concerns or details*

All signature pages are separate from the body of the document. This page is always required to be completed by the listed parties.

Part 4 – Signature Page(s)

Prepared by: *Must match the POC information above. Include the following statement:* I certify that the supporting data in this report under my cognizance is accurate and complete to the best of my knowledge and belief.

Approval page is to be used when using this document to Issue a determination that the prior use of FAR Part 12 procedures was improper or that it is no longer appropriate to acquire the item using FAR Part 12 procedures. Remove this page if the MRR concludes the item is commercial. Use the appropriate designated title and signature block for the approval level.

Prior use of FAR Part 12 Determination

In accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 212.001-70(b), I have assessed the information provided in the commercial item determination for *(identify the title or short description of the supplies/services)*. The prior use of FAR Part 12 procedures was improper, or it is no longer appropriate to acquire the item using FAR Part 12 procedures is supported by sufficient market research. *Provide appropriate explanation for the basis of the determination.* I hereby determine the procurement of *(identify the title or short description of the supplies/services)* does not meet the commercial product or commercial service definition at FAR 2.101.

Approval page is to be used when using this document as part of an individual or class RFA application. Remove this page if the MRR will not be used as part of an individual or class RFA application. Use the appropriate designated title and signature block for the approval level. The approval authority, see delegation, must complete the assessment and recommendation within 30 days of the date of receipt of an individual or class RFA for solicitation of non-commercial products or services. HCAs are required to submit their agency data report of all RFAs,

Individual *or* Class (*choose one*) Approval for Procurement of Non-Commercial Products or Services

In accordance with Defense Pricing, Contracting and Acquisition Policy (DPCAP) memorandum “Executive Order 14271 – Ensuring Commercial, Cost-Effective Solutions in Federal Contracts – Implementation Guidance”, dated 27 May 2025, I have assessed the information provided in this Request for Approval application for (*identify the title or short description of the supplies/services*). It provides sufficient market research and price analysis in support of the procurement of non-commercial products or services. *If the approval is for a class RFA, include the following statement:* The class action provides the specific scope for the class as a whole and for a specified period with the expiration date of *XXDATE*. *Provide appropriate recommendations “to advance the solicitation of commercial products or services where those products or services would be sufficient to serve the applicable procurement needs”.* I hereby approve the procurement of (*identify the title or short description of the supplies/services*). The approval is subject to availability of funds, and provided that the supplies and/or services herein described have otherwise been authorized for this acquisition.
